Our Company

Larch Technologies is a specialized software product company delivering intelligent digital solutions for the automotive manufacturing industry. Our flagship platform, [LarchERP](#), is designed to empower Tier 1 and Tier 2 suppliers with real-time visibility, process control, and compliance-driven workflows.

With deep domain expertise in automotive manufacturing, we bridge the gap between shop floor operations and enterprise systems—helping manufacturers achieve operational excellence through digital transformation.

STEPS AHEAD TO GROW...

Vision

“ To become a trusted global technology partner for automotive manufacturers, enabling smart, connected, and efficient factories. “

Mission

To digitize and optimize automotive manufacturing processes

To enable real-time, data-driven decision-making

To help organizations achieve world-class quality and compliance standards

Core Offerings

01 Manufacturing Execution System (MES)

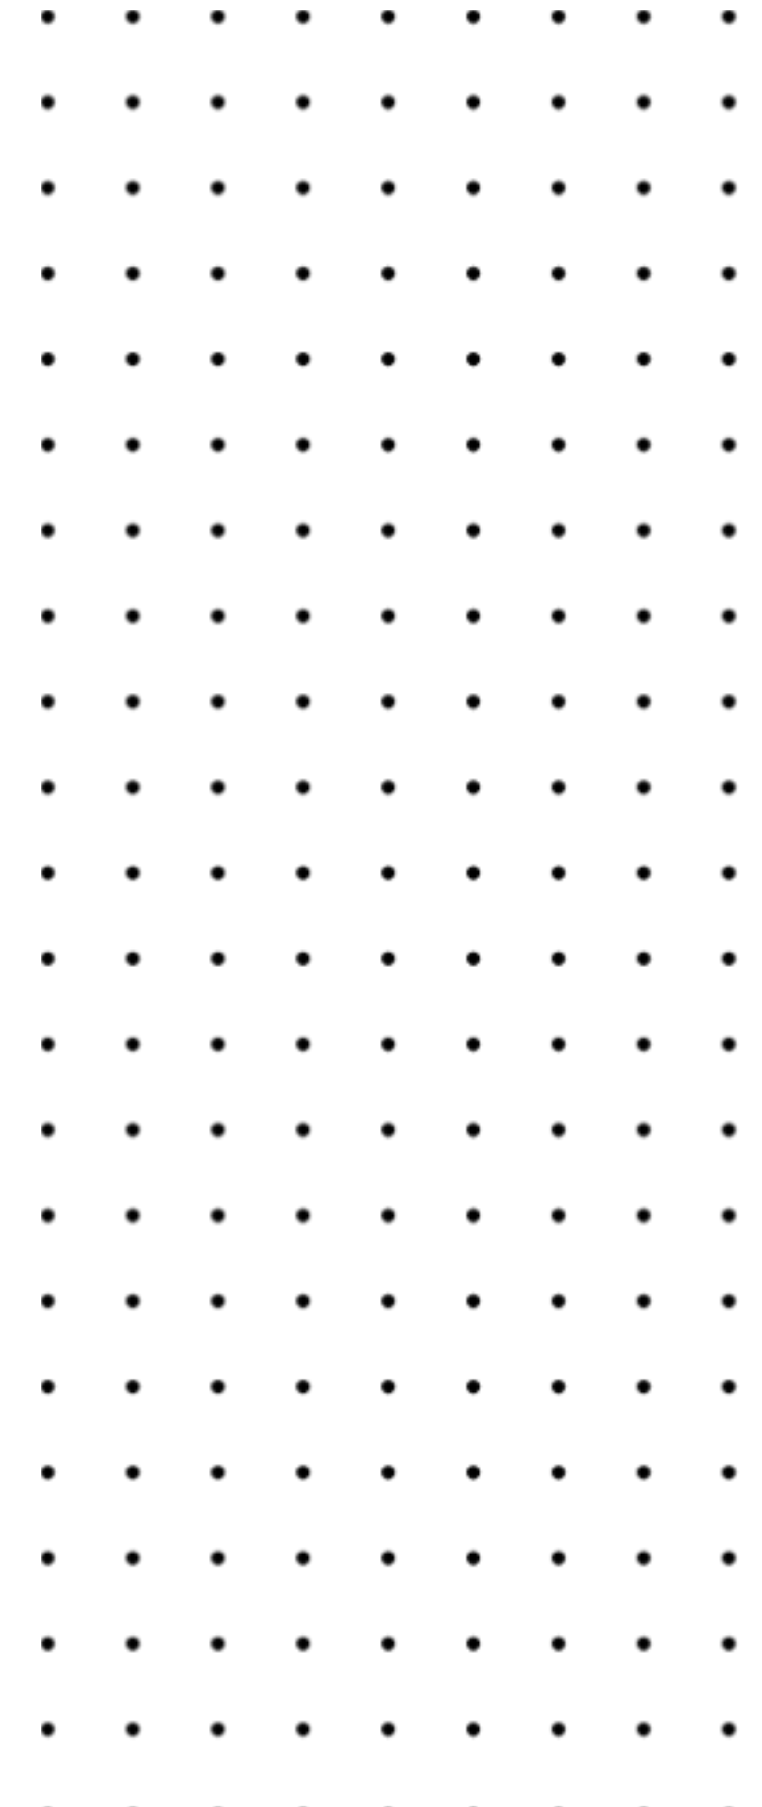

- Real-time production tracking
- OEE monitoring and downtime analysis
- Work order management
- Shop floor visibility dashboards

02 Quality Management System (QMS)

- IATF 16949 compliance modules
- APQP, PPAP, FMEA, MSA, SPC management
- Audit management (internal & external)
- CAPA tracking and traceability

03 Inventory & Warehouse Managment

- Raw Material (RM), WIP, and Finished Goods (FG) tracking
- Barcode/RFID integration
- Batch and serial number traceability
- Automated stock reconciliation

Core Offerings

04 Production Planning Control (PPC)

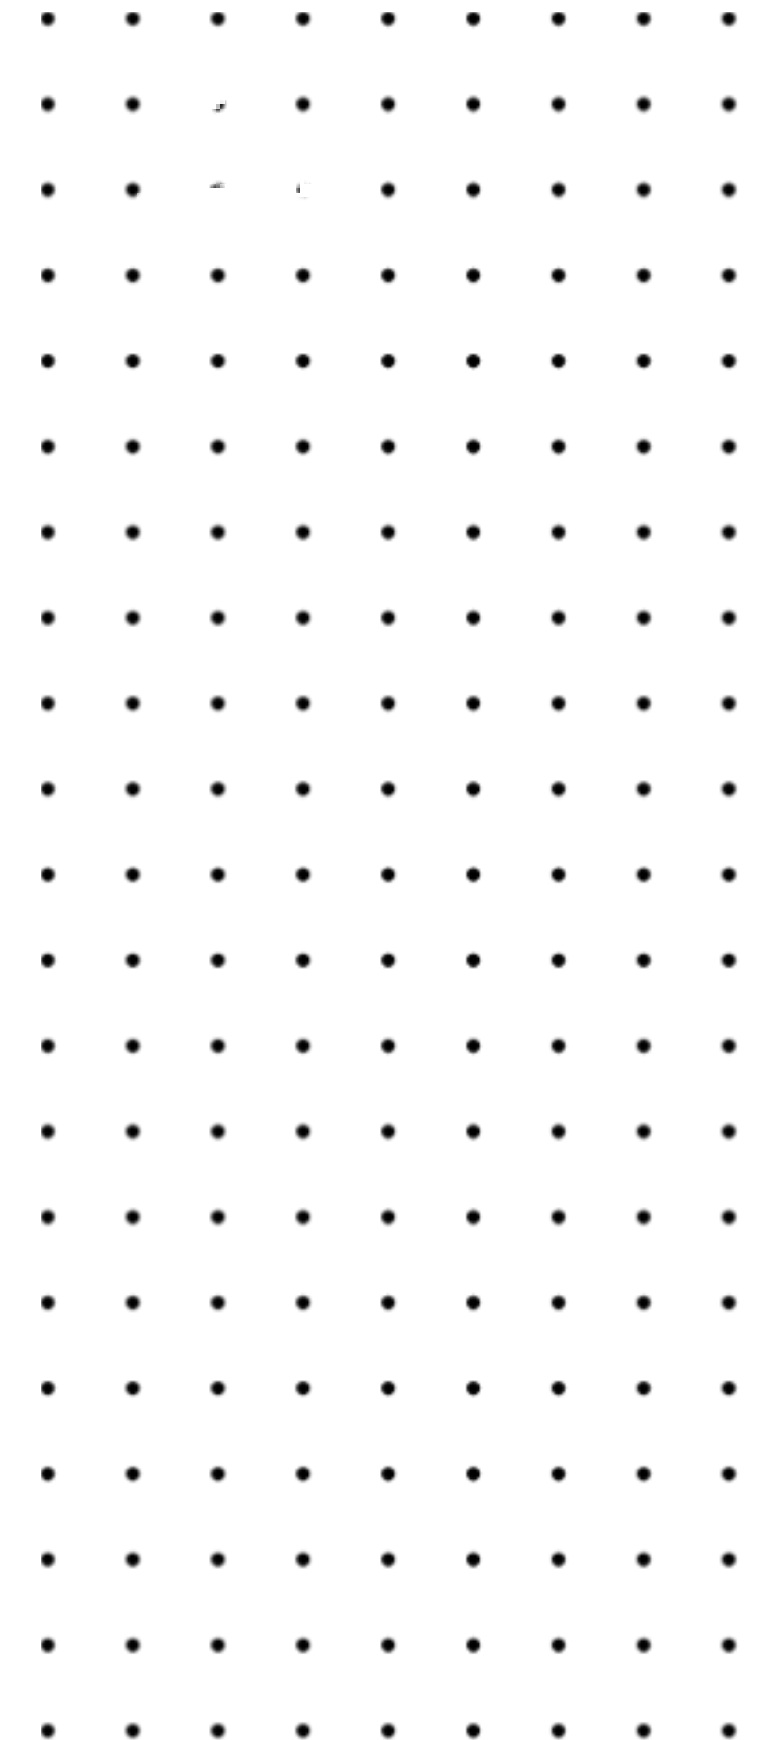

- Demand forecasting
- Production scheduling
- Capacity planning

05 Supplier & Procurement Management

- Supplier performance tracking
- Purchase order and GRN management
- Incoming inspection module

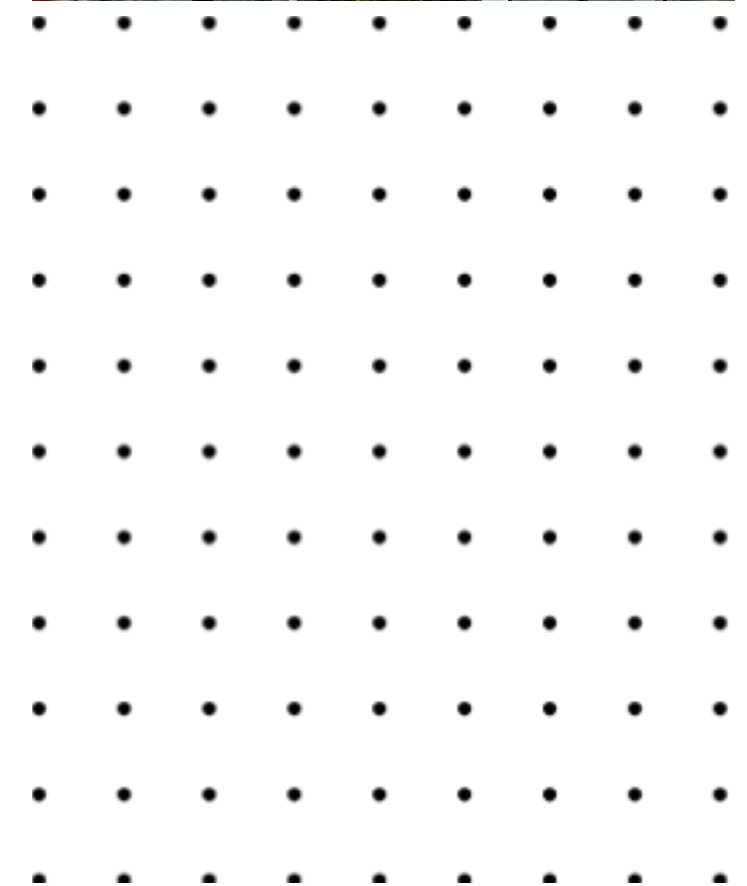

06 Training & Skill Development Modules

- Operator training systems
- Skill matrix management
- Certification tracking

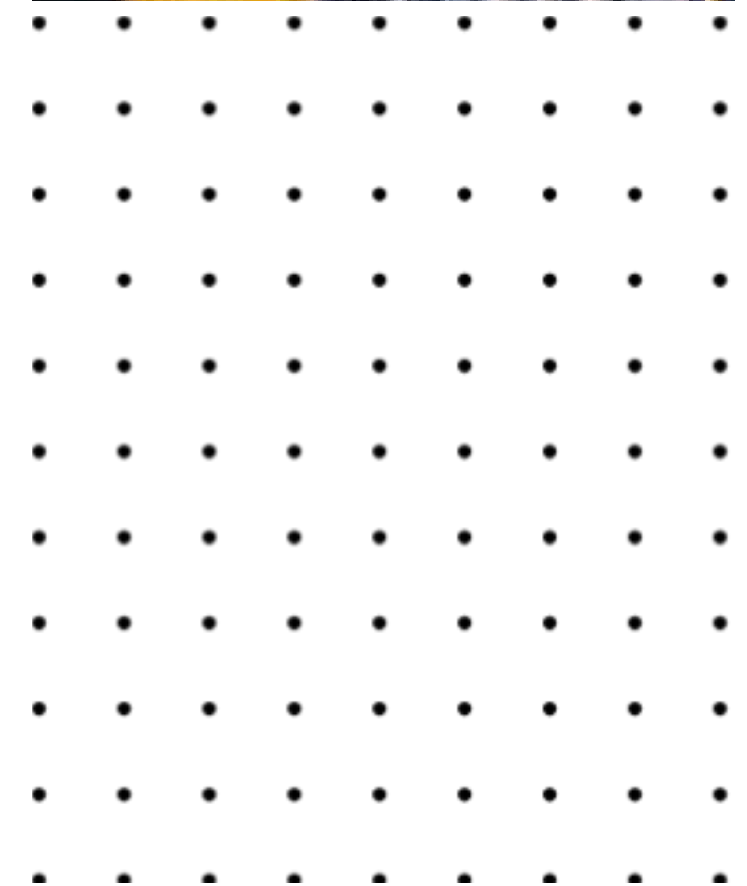

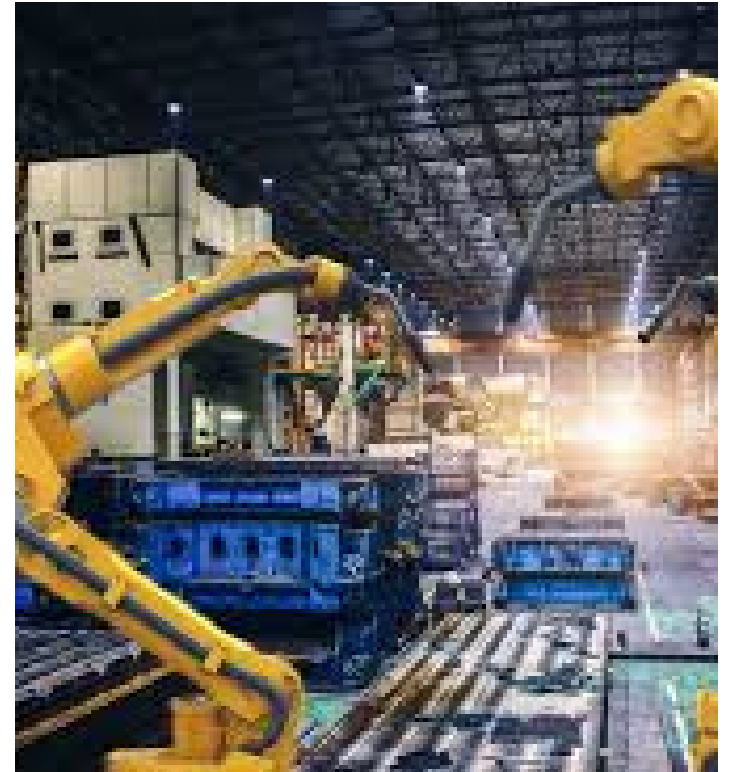

Key Features

- Industry-specific and fully customizable
- Cloud-based or on-premise deployment
- Real-time dashboards and analytics
- Seamless integration with ERP, IoT, and machines
- Mobile-friendly interface for shop floor usage

Industries We Served

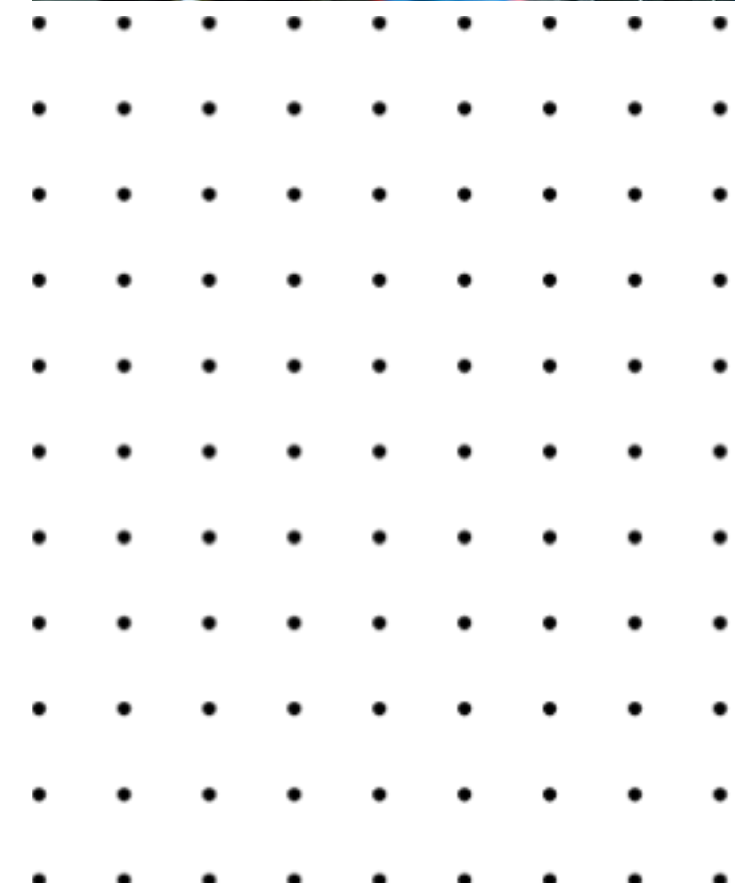

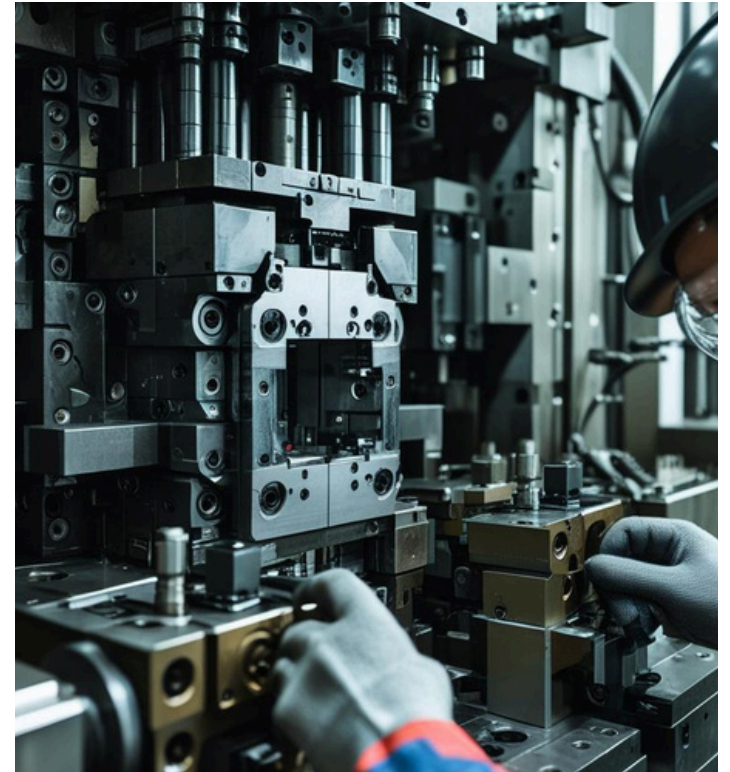

- Automotive OEMs
- Tier 1 & Tier 2 suppliers
- Injection molding companies
- Auto component manufacturers

Value Proposition

With LarchERP, automotive manufacturers can:

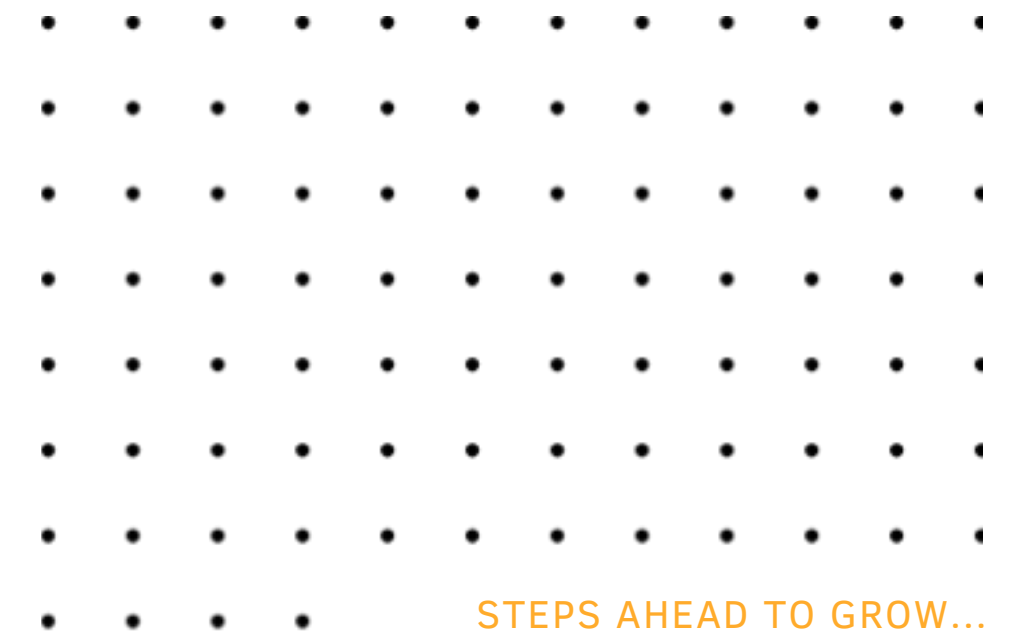

- Improve production efficiency and reduce downtime
- Achieve IATF audit readiness
- Enhance traceability and quality control
- Optimize inventory and reduce operational costs
- Scale operations without increasing manpower

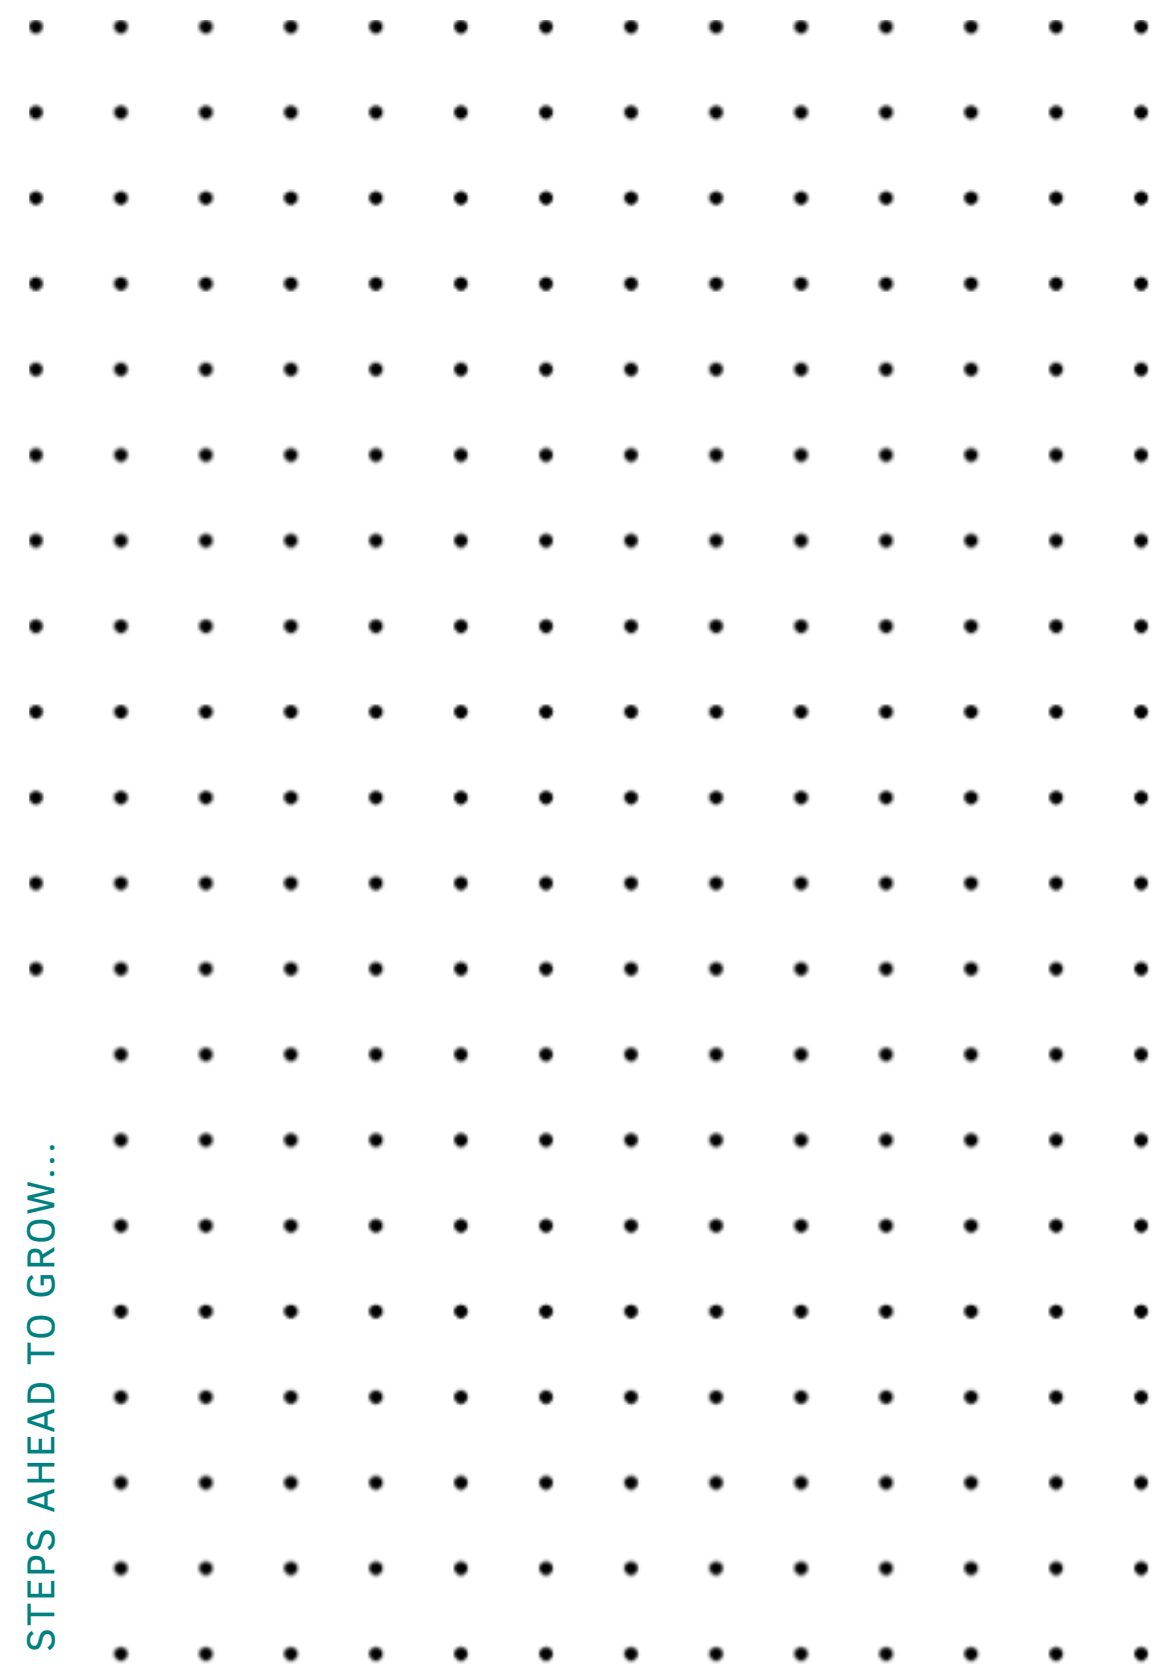

Why Larch?

- We are unique resource for top IT expertise
- Deep automotive domain expertise
- Strong focus on IATF 16949 compliance
- Scalable and modular architecture
- Faster implementation and ROI
- Dedicated customer support
